Hardware

#### OPTIONS THAT MAKE THE DIFFERENCE

Total Door hardware options fulfill your requirements for beauty, functionality and exceptional value. From our trend setting flush panic to our operating grips and levers, we offer a wide range of options to complete your door system. As with all components of our integrated door system, the hardware is factory installed, ensuring quality, code compliance and reducing field installation time. All hardware components exceed Grade 1 requirements and our exit devices have been tested to over 5 million cycles (*versus 500,000 cycles for standard Grade 1 panics*).

# HARDWARE

## Panic / Exit Devices

**Standard Exit Device** – narrow 1 5/16" projection allows a 32" clear width in a 36" opening. Comes in a standard 24" width. A smaller version (SPI4) of our surface exit device is available for non-rated applications.

- All locking functions are available including electric
- Remote dogging
- Custom widths available

**Flush Panic** – Our Flush Panic fire exit device offers the smallest projection in the industry at a mere 1/8", with the door in the open position.

- Lifetime limited warranty
- No lubrication required
- Fire-rated to 3 hours
- ADA compliant
- Cycle tested to over 5 million cycles
- Finishes available in anodized dark bronze or satin aluminum with inserts in virtually any finish.

## Operating Grips

Total Door® grips, mechanisms and trim are factory installed and do not require any field labor. They offer simplicity in design and resistance to abuse and forced entry.

- Available in anodized finishes.

## Levers

Our levers come in a variety of styles and finishes and can be used together with our panics. We also install other lever designs if your project requires them.

## Door Trim Combinations

- Standard and flush fire exit panic devices with no trim on pull side or with lever or grip
- Lever by lever
- Operating grip by operating grip.

## Total Door® Mechanisms

Available in our Levers, Grips and Panics

- Factory installed
- Lifetime limited warranty
- Fire-rated to 3 hours
- ADA compliant

## LEVER FINISH OPTIONS

- |                   |                     |
|-------------------|---------------------|
| 605 Bright Brass  | 606 Satin Brass     |
| 611 Bright Bronze | 612 Satin Bronze    |
| 625 Bright Chrome | 630 Satin Stainless |
|                   | 710 DBA             |

Optional panic edge protector for high abuse applications.

- All locking functions including exit device and electrical functions (electrical functions not available with grips)
- Work with standard mortise cylinder
- Compatible with levers of many manufacturers
- Trim is available in most standard hardware finishes

**Key cylinders:** Use the standard mortise cylinder of your choice in our mechanisms. Total Door systems have been designed to allow you to use the same cylinder system you have in the rest of your project.

## Kick Plates

Kick plates, mop plates, stretcher, armor plates and hospital edge guards are factory installed. Protection is available up to the full height of a fire door with our bonded, wrap-around design. Available in stainless, brass, and dark bronze anodized (DBA).

## Additional Options

**High Abuse Package** – High strength foam, additional steel rails, additional strengthening welds.

## Emergency Release Hinge

(Psych/Behavioral Hinge) – Attaches to the standard hinge housing to allow fast door removal from outside a patient room while maintaining the security and abuse resistance of our standard door. The emergency release hinge allows doors swinging into a room to be removed quickly and easily from the outside if the occupant barricades the door from the inside.
